Subject: US title clearance procedures (US EXPORTS)

The following is a Copy of Information, provided by a third party US-based service provider. Information in blue, represent updated information. Tel numbers / other details are subject to change.

Client Support Notes – In most cases, CHB - customs brokers are utilized for any customs work, unless formalities can be handled directly by shipper/cargo owner/client and local Customs.

Procedures vary with each port of export (US and abroad) and are subject to change at any time. Port details, contacts are provided along with the formal booking confirmation for your shipment.

Courier Service - We suggest providing a FedEx account number at time of booking, to facilitate return of any original documents. Printing your own FedEx airwaybill, for title return, is suggested. Please see: www.sefco-export.com/documents/courierdocs.htm

Customs Brokers & Referrals - Where advisable, one of the US-based (or Non-US) Customs brokers known to our company, may be referred for support and handling. The owner of the cargo is responsible for all local charges at origin and destination.

Security checks by local police and/or Customs can be ordered on a random basis.

Are you booked through Sefco Export Management Company? Relay your info (scans of docs, etc.) and any request for assistance to: info@sefco-export.com / www.sefco-export.com

For more information, see: www.sefco-export.com/referrals/support.htm www.sefco-export.com/basics/eei.htm www.sefco-export.com/validation.htm
